

Stamp Music

Personal Recording and Workshops

So you've got a song or just an idea and don't know where to turn...we can help.

With over 20 years as a full time Musician, Pete Arthur, founder of Stamp Music has worked with hundreds of groups and individuals to bring their thoughts and songs to life.

Pete has worked as a producer on folk songs to heavy metal, a song writer and guitarist for rock bands and children's theatre productions, written with special needs kids, mental health groups, in detention centres, produced songs for youth events and the list goes on.

Whether it be just the title and a few lyrics, to fully written and arranged songs or full recordings in our home studio. We've provided recording facilities, the instrumentation, assisted with the song arrangement, provided vocals and harmonies or simply put musicians in touch with each other.

If you've got a song, the kernel of a song, want to do a band demo or acoustic recording, need help with song arrangement and parts or are looking for a producer for your project, we may be able to help.
